The Ohio is crossed by a bridge 2,005 feet long, double-track throughout and built with five spans, one 372 feet long, one 86 feet long, and three 200 feet long. The approaches are 817 feet and 833 feet, respectively.

**Boils and Pimples**

Are nature's effort to eliminate poison from the blood. This result may be accomplished almost entirely by proper diet, as well as by other means. A well-balanced diet is the best means of maintaining health, by the use of Ayer's Sarsaparilla.

"For several years I was troubled with boils and carbuncles. I consulted about for a remedy. It occurred to me that Ayer's Sarsaparilla had been used in my father's family, with excellent success, and I thought that what was good for the father would also be good for the son. Three or four bottles of this medicine entirely cured me and I have never had a boil since—more than two years—nor any other eruption. I should think, therefore, that the benefits derived from such a remedy as this are well authenticated by the experience of others."—C. H. Rollin, Farmville, Ind.
