For every minute of reading logged between June 1st—the start of our 2019 Summer Reading Program—and July 20th—the 50th anniversary of the moon landing, we travel one mile closer to the moon. Our moon is 238,900 miles away, and we are already over half there—our patrons are out of this world! Can we "Read to the Moon and Back?" Children, teens, and adults can help us achieve this goal by logging their minutes read on Summer Reading bookmarks before July 20th. The weekly distance read to the moon (&amp; back) will be visibly tracked here at the Library for all to see. Look for more information at our display table or ask at the Library's Circulation Desk.</p>
